Dear Parents,

Seminar for Parents: Reading and Curriculum Introduction

What are the advantages of reading for children? Through reading, children can develop listening and speaking skills and improve concentration and attention span. They can also accumulate vocabulary and phrases and learn various writing skills, which can help them lay a good foundation for language learning. Besides, reading can also foster children's self-esteem, help them establish life values and develop optimistic mindsets, positive emotions, self-discipline and habits of self-help. All these help children to grow into persons of mental stamina, who are able to build and sustain interpersonal relationships, withstand stress, resist temptation and face changes without fear.

How can parents help children to enjoy reading and achieve the good results? To begin with, parents must know how to choose storybooks, tell stories and engage children in the reading activities.

On 11 September (Saturday), the school will hold a seminar on "Read More, Enjoy More" for K2 parents. This seminar aims at helping parents to learn how to choose suitable storybooks for their children, tell stories in a lively and interactive manner, and make use of the parent-child reading time to help their children learn to manage their emotions. We hope parents can spare the time and join this Zoom seminar. Please return the reply slip to the class teachers before 6 September (Monday). Details of the activity are as follows:

Date: 11 September, 2021 (Saturday)
